

How to give CRV permission to access your Dam data.

Either give CRV your LIC Pin # or give permission via the LIC website (outlined below).

Go to the LIC website – www.lic.co.nz

Login into the member services using your Pt code and pin number,

Follow the instructions below,

The screenshot shows the 'User Permissions' page in a Windows Internet Explorer browser. The page has a left-hand navigation menu with 'Assign Permissions' selected. The main content area includes a 'User Permissions' header, a 'Log Off' link, and a 'SUMMARY OF EXISTING PERMISSIONS' table. The table has columns for 'PTPT', 'NAME', 'MINDA Software (read & update)', 'MINDA Software (read only)', 'Herd Reports', 'Tag Cross', 'Record Liveweights', 'Business to Business', 'UNTIL', and 'DELETE THESE PERMISSIONS?'. A row is visible for 'AM' with 'CRV AmBreed' as the name, and '31/05/2099' as the end date. The 'Herd Reports' checkbox is checked. A 'Delete' button is present in the 'DELETE THESE PERMISSIONS?' column. Below the table, there is a 'Confirm New Permissions' button. Five callouts provide instructions: 1. Click on the assign permission tab; 2. Type in AM Then click add new; 3. Tick herd report; 4. Change date to 2050. This means we will not have to reassign permission each year; 5. Click 'confirm new permission'.

1. Click on the assign permission tab

2. Type in AM Then click add new

3. Tick herd report

4. Change date to 2050. This means we will not have to reassign permission each year

5. Click 'confirm new permission'

PTPT	NAME	MINDA Software (read & update)	MINDA Software (read only)	Herd Reports	Tag Cross	Record Liveweights	Business to Business	UNTIL	DELETE THESE PERMISSIONS?
AM	CRV AmBreed	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	31/05/2099	Delete
