

GLOBAL SIRES FIELD DAYS

SELECT THE RIGHT OVERSEAS GENETICS TO ACHIEVE YOUR HERD GOALS

INTERESTED IN:

- Greater genetic diversity
- Variation in your bloodlines

CRV Global Specialist Eric Elbers is visiting New Zealand and is available to meet with farmers interested in discussing how global genetics could make a difference in their herds performance.

Our global experience combined with our local knowledge of what works well in NZ farming systems means we can help you select the right overseas genetics to achieve your herd goals.

TOPICS:

- CRV Ambreed 2018 portfolio of Global Sires
- Better Life Health and Better Life Efficiency Indexes explained
- The opportunity to be part of our sampling programme
